891 Pixley Road

Rochester, New York

QuadA
FOR KIDS

Off the streets and on to life.

Off the streets and on to life.

Quad A for Kids plays an important role in the lives of Rochester's children. There are approximately 20-25 hours per week that children are out of school while most parents are at work. Too many kids are on the streets after school dodging crime and violence.

Quad A for Kids offers programs for children outside the normal school hours in a safe and caring environment, 5 days a week, 3 hours a day, which has had the greatest impact on youth and development. As a result, our children are better equipped to handle the many challenges they face in the world today.

We use fun techniques to foster self-esteem, develop positive behaviors, and resolve conflicts peacefully as a way to support the advancement of education in the arts, athletics and academics. Built within each of the classes is an academic focus along with personal and social skill development.

At *Quad A for Kids*, we believe through our extended day programs we support families, bring positive role models that make a difference in the lives of our youth and provide a worthwhile alternative to life on the streets.

Thank you for making this possible!
